

This exploded view diagram illustrates the assembly of a power tool, likely a reciprocating saw. The components are numbered 1 through 100. The diagram shows the following parts and their assembly sequence:

- Motor and Gear Assembly (Parts 1-23):** The motor (17) is assembled with its housing (12), end cap (13), and various internal gears (14, 15, 16, 21, 22, 23) and bearings (18, 19, 20).
- Drive Shaft and Gear (Parts 24-27):** The drive shaft (24) with a large gear (25) is assembled with a bearing (26) and a pulley (27).
- Reciprocating Mechanism (Parts 28-44):** The reciprocating mechanism (42) is assembled with a connecting rod (11), a piston (9), and various pins (8, 39, 40, 41, 44) and washers (37, 38).
- Blade and Blade Guard (Parts 45-50):** The blade (45) is assembled with a blade guard (46) and a blade holder (47).
- Blade Mounting (Parts 51-54):** The blade is mounted to the reciprocating mechanism using a blade holder (51), a blade guard (52), and a blade holder (53).
- Blade Mounting (Parts 55-58):** The blade is mounted to the reciprocating mechanism using a blade holder (55), a blade guard (56), and a blade holder (57).
- Blade Mounting (Parts 59-62):** The blade is mounted to the reciprocating mechanism using a blade holder (59), a blade guard (60), and a blade holder (61).
- Blade Mounting (Parts 63-66):** The blade is mounted to the reciprocating mechanism using a blade holder (63), a blade guard (64), and a blade holder (65).
- Blade Mounting (Parts 67-71):** The blade is mounted to the reciprocating mechanism using a blade holder (67), a blade guard (68), and a blade holder (69).
- Blade Mounting (Parts 72-74):** The blade is mounted to the reciprocating mechanism using a blade holder (72), a blade guard (73), and a blade holder (74).
- Blade Mounting (Parts 75-77):** The blade is mounted to the reciprocating mechanism using a blade holder (75), a blade guard (76), and a blade holder (77).
- Blade Mounting (Parts 78-81):** The blade is mounted to the reciprocating mechanism using a blade holder (78), a blade guard (79), and a blade holder (80).
- Blade Mounting (Parts 82-85):** The blade is mounted to the reciprocating mechanism using a blade holder (82), a blade guard (83), and a blade holder (84).
- Blade Mounting (Parts 86-89):** The blade is mounted to the reciprocating mechanism using a blade holder (86), a blade guard (87), and a blade holder (88).
- Blade Mounting (Parts 90-93):** The blade is mounted to the reciprocating mechanism using a blade holder (90), a blade guard (91), and a blade holder (92).
- Blade Mounting (Parts 94-97):** The blade is mounted to the reciprocating mechanism using a blade holder (94), a blade guard (95), and a blade holder (96).
- Blade Mounting (Parts 98-100):** The blade is mounted to the reciprocating mechanism using a blade holder (98), a blade guard (99), and a blade holder (100).
